

Wings of Light ~ Spiritual Reflection

*with
Altruh Dominion*

*Wings of Light Spiritual Reflection is a space
where two come together to listen more deeply for the
voice of God.*

*It is a space where Silence may be speaking
louder than words,
Or where ears can hear depths that may be
drowned out by the usual external/internal noise.*

*It is a safe space where what is deepest within you
may be witnessed allowing your own interiority
perceive the calling that lives deep within you.*

~

Bio

*My own path has led me through many different facets
of Life on the Spiritual Path ~*

The closest resonance is with Christian Mystics and Contemplative Prayer. I have recently completed my internship in Spiritual Direction through The Spirituality Center ~ Listening with Spirit ~ St. Placid Priory, in Washington state.

As well over the course of 40 plus years, I have spiritually traveled through various traditions such as deep study of Biblical teachings, Hinduism, Taoist, Zen and an array of metaphysical teachings. I have learned to glean God's Truth wherever it is found. And further now, to learn to discern from within what is the deepest truth, and how this transforms into new life unfolding from within ~ for me, into the very Heart & Spirit of Christ...through life's joys and sorrows, pleasures and pains, highs and lows, the shallows & depths.

Because of these experiences, I am more able to hold space with others on their own journey as, underneath and through – All is Spirit.

The capacity to glean from varied traditions, has offered me insight and understanding that reaches beyond external forms and into the very Presence of God. The space we hold together in this setting is sacred space... not about me or my own journey, but as a mirror and companion to reflect aspects of your own experience into what God may be shining back to you!

~ All held in integrity & confidentiality ~
